Live Bottom Solutions

# ENHANCED SOLUTION FOR BULK TRANSPORT APPLICATIONS

As the first Australian built Live Bottom manufacturer, Trout River is renowned for providing quality tailored solutions for customers with outstanding service and support.

Trout River Live Bottom units are an enhanced solution for bulk transport applications, providing a safer, more versatile alternative to conventional tipping. With a large range of specialised attachments also available, Trout River has a solution available to suit your specific transport application.

What's more, all Trout River products are designed and manufactured locally in Australia for Australian conditions and come with the support of MaxiTRANS' national dealer and service support network.

## LIVE BOTTOM TRAILERS

The Trout River Live Bottom Trailer is an enhanced solution for bulk transport applications. The specialised capability to empty its content using an interior conveyor belt system, offers operators a safer and more versatile alternative to unload in environments with low structures and overhead obstacles.

### Main Applications:

Bulk products including hot mix asphalt, quarry products and paving applications.

### Dimensions (nominal):

**Body Length:** 8,500mm up to 11,890mm

**Body Height:** 1,500 up to 1,700m

**Overall Height to Top of Coaming:** 2,750mm up to 2,950mm

**Cubic Capacity:** up to 30m<sup>3</sup>  
(to waterline measurement)

Various dimensions are available upon request.

### Configuration:

Single and Road Train configurations including PBS configurations.

**Cubic Capacity**  
Up to 30m<sup>3</sup>

**Warranty**  
Refer to full  
T&C's of sale
